Profile

I am an enthusiastic and goal-oriented professional eager to join a progressive organization where I can utilize my skills and expertise. With unwavering dedication to excellence, I aim to contribute significantly to organizational objectives while advancing within a growth-focused environment.

Education

Present - B.E Computer Science And Design Kongu Engineering College (perundurai) 2022-2026

Diploma- Computer science and Engineering Kongu Polytechnic College(perundurai) 2020-2023

SSLC-KGS Matric Higher Secondary School (tirupur)2019–2020

Skills

HTML, CSS, Python, Java, SQL, React Js.

Interests

- Web Development
- UI/UX
- AR & VR

Projects

Acuity Tutoring – Full Stack Web Application [🔗](#)

Built a tutoring management web app using **React.js**, **Node.js**, and **MongoDB**. Developed interactive **UI screens and handled form submissions using REST APIs**. Integrated **MongoDB for secure and efficient data storage**. Improved skills in full-stack development and scalable application design.

Fitness Challenge Tracker – Full Stack Web Application [🔗](#)

Developed our project on **Front End:** React JS,css. **Back End:** Node JS, Mongo DB. I gained experience in building a full-stack web application that **tracks user progress, stores data efficiently, and provides real-time updates**.

Emotion-Detection [🔗](#)

I learned to use APIs for emotion detection and train/test machine learning models using **NLP algorithms**. I gained hands-on experience in **building and evaluating a personalized music recommendation system**.

AR Master Game – Augmented Reality Project [🔗](#)

Developed an interactive **AR game using Unity and AR technology**. Implemented real-time object detection and **3D model interaction**. Enhanced user engagement through immersive **game mechanics and animations**.

Number-conversion-app [🔗](#)

Developed by-using on **HTML,CSS,&JAVA SCRIPT**,and **Number Conversion using Socket programming**. To implement number conversion algorithms and integrate them with a **WebSocket for real-time communication**.

Achievements

I presented a paper on **AR/VR Technology in Building Construction** at PSG, showcasing its impact on modern construction practices. This experience enhanced my research, presentation, and technical skills.

Certificates

- Mongo DB Certified Associate Developer
- Prayoga Technologies inplant
